# PROJECT PRESENTATION

created by: David Omale

# ORIGIN OF THE CREATIVE IDEA

Its all started in class after a long day of learning and copying of note, and I now realize what if I could bring a solution. That when I taught creating an e-library website in which books and resources are available to all, but children that like to read and don't, because audio book would be available which make its easier for learning.

# VISION AND MISSION

## VISION

To see a world where learning resources are not limited to any particular area but all over the world.

## MISSION

To provide a platform where learning can be made easier and fun for all ages of learner around the globe.

# **INSPIRATION AND CREATIVITY**

**My inspiration and creativity comes from school with limited access to books and resources, but try hard to become the best in this world.**

# IDEATION PROCESS

## BEGINNING

Create a prototype of the website deploy into small institute for experimenting and testing of the functionality of the website.

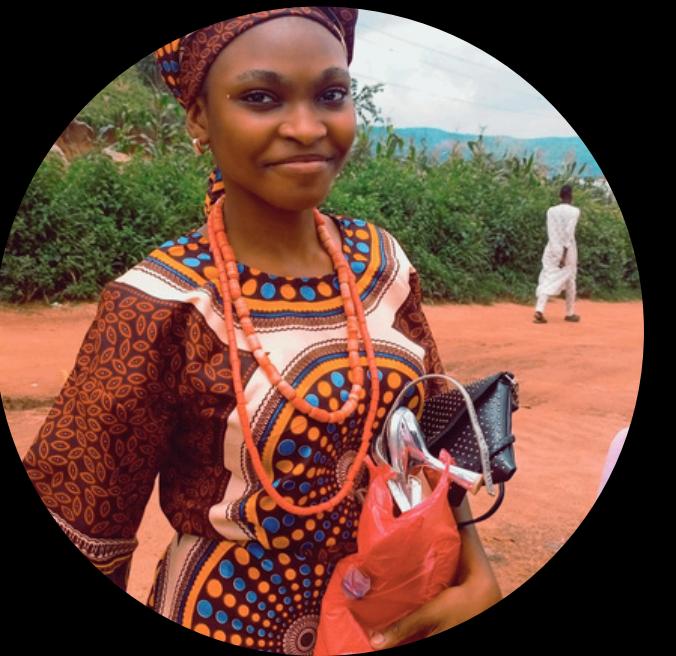

## ADVANCED

We will now deploy the website into various large institute for recognition and to acquired investment.

## FINAL

Deploy into various browser for worldwide usage.
